

Exatron Label Supplies

- Years of practical experience and refinements
- Labels specifically designed for small label applications
- Guaranteed to work with Exatron products
- Custom labels for any small placement application
- Customized applicators to meet the needs of most all requirements

Exatron guaranties its' products to work with Exatron label supplies. The customer is free to use label supplies from any source. Using non-Exatron label supplies can lead to problems. We will do what we can to help, but ultimately, it is the customer and/or the label supply vendor who will need to deal with any problems that arise. We *cannot* guaranty proper operation of our equipment with non-Exatron label supplies.
