

# Model 3000BL

## Medium Duty Test Handler with Labeling

- See the Model 3000B brochure for test handler details
- Labels up to 2400 devices per hour with test/program
- Prints and applies labels as small as 0.2" square
- No label queue; prints and applies one label at a time
- Print text, 1D and 2D bar codes, logos
- Integrated Zebra 91Xi 600 dpi thermal transfer printer
- Polyester, ThremoTuff, and Kapton high temperature labels
- Optional serialization software
- Direct customer printer control option, standard
- Ideal PROM/PLD programming system

The 3000BL integrates an Exatron Model 3000B test handler with a Zebra label printer. This system allows one device to be programmed while the previous good device is being labeled. The 3000BL supports all CO kits used by the 3000B with some additional label site track work. Any 3000B CO Kit can be upgraded.

The printer prints and applies one label at a time. There is no queue of wasted labels. The printer can be controlled by Exatron software, 3<sup>rd</sup> party software, or customer supplied software.

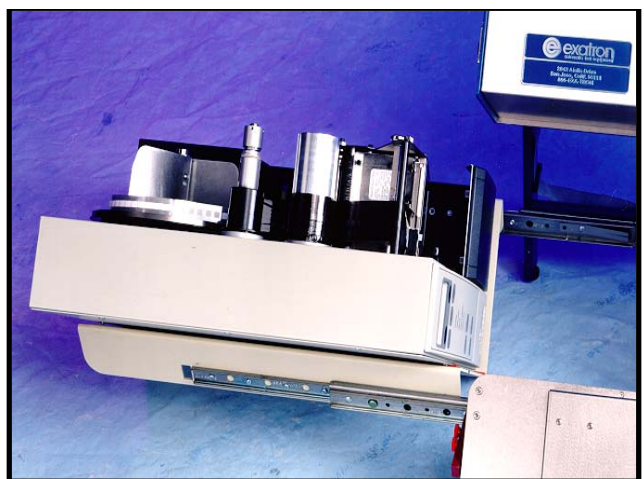

Built-in PLC Computer control (Handler only)  
 Extensive self-diagnostic software  
 Size: 42"W by 26"D by 30"H  
 Weight: 75 lbs (with printer)
